Adam Marks

People Operations & Organizational Strategy Leader
adamtyrrellmarks@gmail.com | 646.240.0835 | New York, NY

EXECUTIVE SUMMARY

People Operations and HR systems professional with 10+ years across employee support, operations, and systems. Experienced with Jira ticket queues, Workday, Greenhouse, onboarding, employee lifecycle workflows, and cross-functional troubleshooting. Builds SOPs and automation that improve service quality and efficiency.

ENTREPRENEURIAL LEADERSHIP

Stealth Gaming Startup - Co-Founder, People & Business Operations Feb 2023 - Present

Fully distributed startup · ~40-person team · Active engagement

- Co-founded a distributed ~40-person startup, building its People, finance, and operating infrastructure.
- Owned talent operations, workforce planning, compensation/equity, and performance; coached team leads through sensitive employee decisions.
- Built People systems, knowledge resources, and AI-assisted workflows for recurring administrative work.

PROFESSIONAL EXPERIENCE

Hiltzik Strategies - Senior Operations Manager Jan 2023 - Dec 2025

Public affairs & strategic advisory firm · Hybrid workforce

- Owned day-to-day People Operations across onboarding, offboarding, payroll, benefits, HRIS, performance management, and employee lifecycle changes.
- Built and managed an employee-support ticketing system, processing requests through tickets, a shared inbox, and Slack; documented and resolved employee issues.
- Partnered with leadership on workforce planning and employee experience; built OKR/KPI reporting.
- Led Workday and SAP implementation and administration with IT, including employee data, workflows, access, testing, troubleshooting, and documentation.
- Developed SOPs and standardized People workflows using automation and clearer ownership, reducing manual operational workload by ~40%.

Coinbase - Customer Support Analyst Oct 2021 - Jun 2022

Global fintech · Initial phone support operations

- Managed approximately 95 Jira tickets weekly, troubleshooting issues, documenting resolutions, and escalating complex cases; maintaining high standards for quality, CSAT, and resolution efficiency.
- Selected to support Coinbase's initial phone support operations, collaborating with Learning & Development to refine training materials using frontline feedback and operational insights.
- Led onboarding and training sessions for incoming team members, helping new hires understand workflows, systems, and performance expectations.

Google (via Contract) - Chromebook Technician Apr 2019 - Jun 2021

Large-scale education & developer events · New York

- Supported programs serving 80,000+ participants; analytics, user feedback, and A/B testing contributed to ~30% higher adoption.
